

The Billericay School – Digital Remote Learning Plan

This learning provision is to be followed in either of these two scenarios:

- A. Full closure, with all year groups being instructed to remain at home*
- B. Large groups of students (bubbles) being instructed to self-isolate following Public Health England / Department for Education advice.*

This learning provision is to be followed in either of these two scenarios:

- A. To any individual student remaining at home to self-isolate.*
- B. If in **lockdown scenario B** and there are insufficient staff to run the timetabled google classroom learning or if the DfE advises that some year groups spend 1 day out of 5 at home.*

Students should use work from the Access to Learning subject outlines on the school website if they complete all their work. They should communicate with their teacher on Google Classroom if they are having too much or too little work set. Students must 'check-in' with their Form Tutor on Google Classroom every Monday whether they are in school or working remotely.
